Areas of expertise

Theology:

History and philosophy of religions; The antique teaching; The antique religion worship.

It follows the presentation of culture and civilization produced in history by the most representative religions from the early antiquity to the lately antiquity of Vth century aft. Hr. and by the way in which some elements of the old culture and civilization are locating in modernity.

Theology has the purpose of enlarge the vital information's area and the knowledge and human understanding horizon, but also of understanding the new religious movements, and moreover of cultivate the religion tolerance and the "oicumeni" in the modernity world of United Europe.

Development strategy

The individual and the team research objectified in:

- the choice of some research themes with impact at the young people and in
- the domains: religious/theological, cultural, social;
- co-opting through partnerships of Maramureș and Sătmăr' Bishopric;
- the involvement of two monastic centers of nuns from two different provinces: MM and SM
- partnerships with other institutions;
- coordination of the research' line on country over the antique world in order to publish a work named "The Dictionary of history and philosophy of religions". This work is published under the auspices of Romanian Patriarchy;
- the enlarge of the research group at the level of UTCN for research of the general theme "All the new things hide in the secular ones; What was, will be, even if in a different way" and the complementary themes:
- the liturgics music and the pre-Christian public worship;
- the pre-Christian religious teaching;
- the antique religious-philosophical doctrines which have correspondences in contemporary religions and religious

– movements.
